The Catholic Resolutions.

These resolutions, over which the Whig leaders have leism. been chuckling for some days past, appear in the Jour- Resolved, That the Indiana State Sentinel, and the under the above named conditions, and bearing interest Mic ael Shea, James Connors, Joseph Loux, and oth- portion of their subsceribers. ers. Mr. Ryan, in his card addressed to the Journal, Signed by requesting the publication of these resolutions, says: One of the signers of the following resolutions asked

Mr. Brown, of the Sentinel, if he would publish them, and his answer to him was that he would have nothing to do with them."

This statement is untrue. Neither of the signers ever had any conversation with the Editor or the Publisher of the Sentinel in relation to these resolutions. No request to publish them was ever made from any quarter whatever. We had only known of them by Whigs boasting that they had now got the Catholies. Had such a request been made we should have cheerfully complied, reserving the right to make our comments. It is evident that the authors of these resolutions did not expect our favor and sympathy. These men have been made the tools of designing Whigs for the purpose of injuring Gov. Wright. It is a part of the political programme by which an attempt is to be made to transfer the whole Catholic vote of Indiana to the Whig ticket, and the Catholic vote of the United States to Gen. Winfield Scott for the Presidency. Time will now determine whether the houest and independent Catholies of the country are to be transferred at the nod and beck of a few men in Indianapolis. If religion is to be dragged into the coming political contest, we can only say, our Catholic friends have thrown the first sone. And we are yet to learn, whether the Whig party of the country are to be benefitted by this admit manouvre. The writer of this article, the Editor of the Sentinel, is no enemy to Catholicism. When there were only a few scattering Catholic laborers on our canals at Indianapolis, his house was the home of the Bishop and the Priests of the church. He sided them to erect their first house of worship. His children were coue ted at their schools, and he has always been their ready defender. If, now, a war is to be made against him and his political friends because they sympathise with the oppressed in Hungary, and condemn the policy of Austria, let that war come. We are the enemy of despotwo, and the friend of freedom, without regard to the question whether the subjec's are Protestant, Cathelie, or Mahomedan, Jew or Gentile, Saint or Sinner. ther comments for the future.

THE GREAT KENTUCKY REMEDY DR. JOHN BULL'S SARSAPARILLA!!

LINE P. O., Fulton Co., Kv., Oct. 1, 1851. Dr. John Bull: Dear Sir—The two dozen of your Sarsa-parilla, ordered in September, came to hand, and, in ne-knowledging the receipt of the same, I feel I would be doing you injustice to withhold the following, among the many of the instances that have come under my observation, during the last two years, of the great curative prop-

erties of your Sarsaparilla :-Mrs. Jeannette Martin, a highly respectable lady of my, neighborhood, aged sixty-five years, had been long afflicted with a cancerous ulcer, which finally reduced her to so help ess a condition, that she could not leave her bed. She tried the best medical advice in our county, without felief, and had given up all hopes of a cure. At this stage of her case, I persuaded her son to take a bottle of your Sarsaparilla. He did so, and in a short time returned, and purchased another bottle, stating the first had had a decidedly good effect. She continued to use it until, after the use of fiv. or six bottles, I had the pleasure of seeing the old lady herself at church. She assured me that she had almost satirely recovered her health, and from her I received the account of her disease, and in about the same words I give It to yo This is but one of a number of cures under my observation-of very remarkable ones-performed by the use of your Sarsaparilla, in my neighborhood. The ca-mand for it has steadily increased since its introduction

Very respectfully, your obedient servant, WM. R. DICKINSON, P. M.

BOYLE COUNTY, Ky., Oct. 6, 1851. Dr. John Bull : Dear Sir-I have seen the most marvellous cure of one of my patients, by your valuable medicine
—an old lady, who had been afflicted from her childhood with scrofula, and various diseases of the brain. She was sixty years old. It had run into something like leprosy, and she was the most frightful creature my eyes ever beheld. I called in Dr. McFadden, a very fine physician, to consult with me in relation to her. We came to the conclusion that it was out of our power to relieve her; but on going to my office. I accidentally picked up one of your Journals, when, on seeing the wonderful cures your Sarsaparilla had effected. I resolved to try the experiment in this case. I took her two bottles of it, after taking which I perceived a great change. I took her some more. She is now taking the sixth bottle, and I consider her estirely cured. I take great pleasure in recommending your Sar

I, Thomas A. Ringo, of Graves Co., Ky., for the benefit of mankind generally, do hereby certify, that on or about the lith day of October, 1847, I was attacked with a very severe pain in the lower part of the aldomen, which haved but a few minu es, and moved into the left hip, and continued exceedingly painful for about five days, during which time I had a very light fever. At the end of that time the fever cased, and the pain abased for a day or two, after which it are in particular and was abased. after which it again returned, and was much worse than before. During all this time I was under medical treatment. From a short time after I was taken, I was unable to walk or sit up; the hip in which the pain was so bad commenced rising, until some time in January, when it burst, and a number of pieces of bone came out-as many of an inch long. Some time after this, a hard knot ap-peared on my right hip, also one on my right wrist, and one on my leg, below my knee. I continued to get weak and worse, and pain made its appearance in my right shoulder, and would move in my breast and stomach. At this time all persons gave me up to die. A physician then told me that, as a last remedy, I had better use MR. BULL'S FLUID EXTRACT OF SARSAPARILLA. After the use of the second bottle, the knot on my wrist com-merced getting soft. I opened it, and a day or two after, a piece of bone came out. My wrist soon got well, and I continued to gain strength. After I used the third bottle, I could get no more for some four weeks, af er which time I succeeded in getting three more bottles. After using the three last bottles, the knot on my hip became soft; it was opened, and some corruption ran out together with a small piece of bone, and the sore soop got well, and the knot entirely disppeared. The sore on my leg also opered, and a piece of home same out. I continued the use of the Sursaparilla until I used twelve bottles, and am now entirely well, and able to do daily labor. It may seem strange to some, but I will here state that, during the summer of 1849, I coughed up three pieces of bone, which can now be seen at the residence of my unsie, Thos. Neal, where I now live, and if any persons doubt this statement, I will be happy to converse with them, if they will call on me. Signed, THOMAS N. RINGO.

State of Kentucky, Graves Co., Sct. This day personally came before me the undersigned, an acting justice of the peace in and for said county, and made eath in due form of law, that the above statement is true. Subscribed and swern to, this lock day of February, 1850. S. P. MORSE, J. P. for G. C. I, Irwin Anderson, Clerk of the County Court of Graves County, State of Kentucky, do certify that S. P. Morse, whose name is signed to the above certificate, is now, and was at the time of signing the same, a justice of the peace,

in and for said Graves County, duly commissioned and qualified as such, and that faith and credit are due all his official acts, as such. In tes imony whereof, I have hereonto set my hand, and caused the seal of the County Court of [L. S.] habit, and taked the state of the last day of February, 1850.

Can the reader believe, after reading the description of the above numerous cures, that there is still a few human beings, suffering with disease, that refuse to give Bull's Sarsaparilla a trial. It is indeed hard to believe, but nevertheless, it is too true. What kind of testimony would it take to convince the few remaining disbelievers, that Bull's medicine will do more even than it promises? The doctor could produce another and another cure performed by his medicine; but if the cases published above will not convice the sceptical, it is useless to produce any more, and, indeed, it would cost a fortune to publish the many certificates that have been showered on Dr. Buil. The largest manusch sheet in America would not contain even the names of those cured, let alone full statements of their
